* Cities and villages marked with an asterisk are contained within more than one county. The counts and percentages shown in the table above reflect only the portions of these municipalities contained within the county of interest for this report.

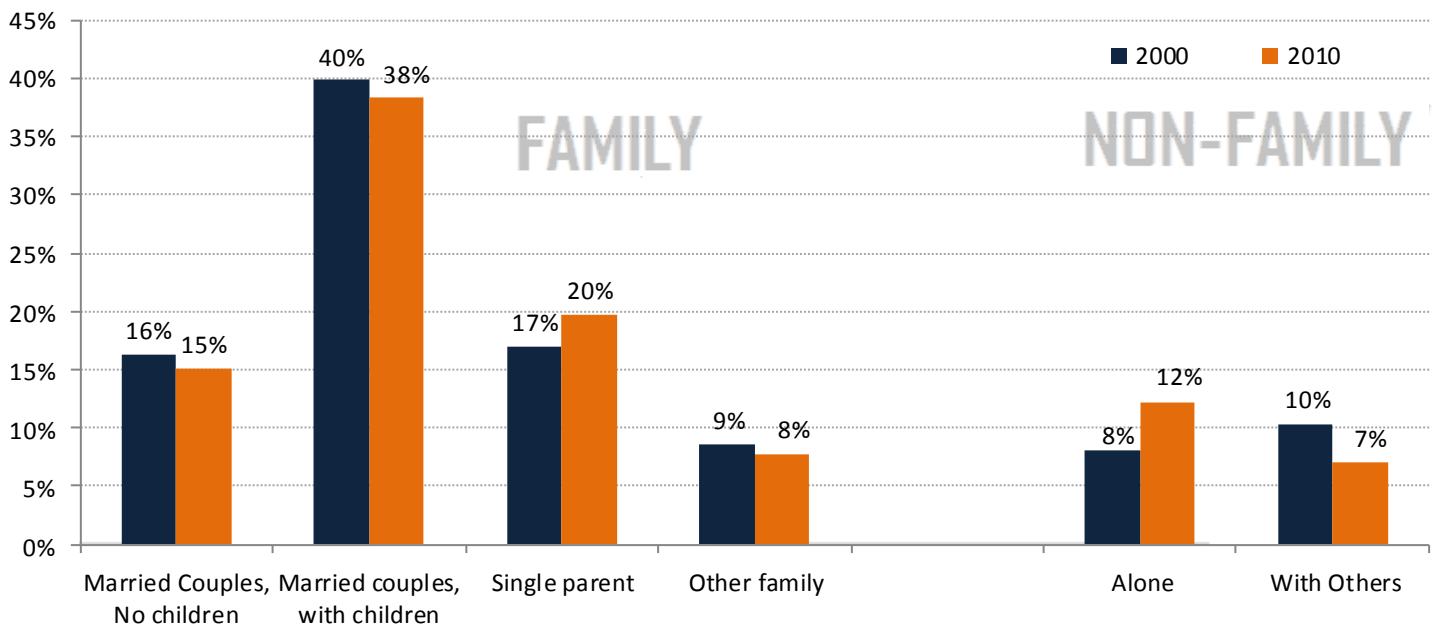

Jefferson County Latino Population Brief

Chart 3. Latino Population
by Detailed Age Categories

Population pyramids are used to identify the proportions of the Latino population that are within each sex/age category. Compared with the total population statewide, Latinos have a greater proportion of the population in the younger age groups.

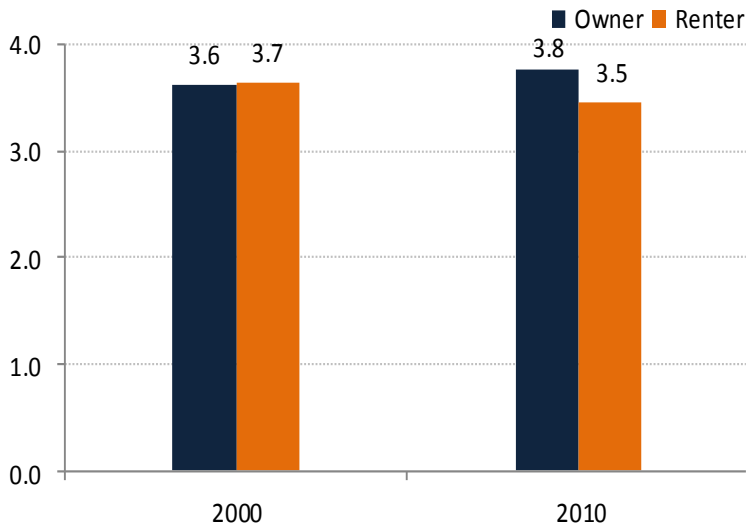

Chart 4. Types of Family and Non-Family Household Living Arrangements

The chart above shows the county proportion of all Latino households in each of the categories for 2000 and 2010. Statewide, the Latino population is more likely than the total population to live in family households.

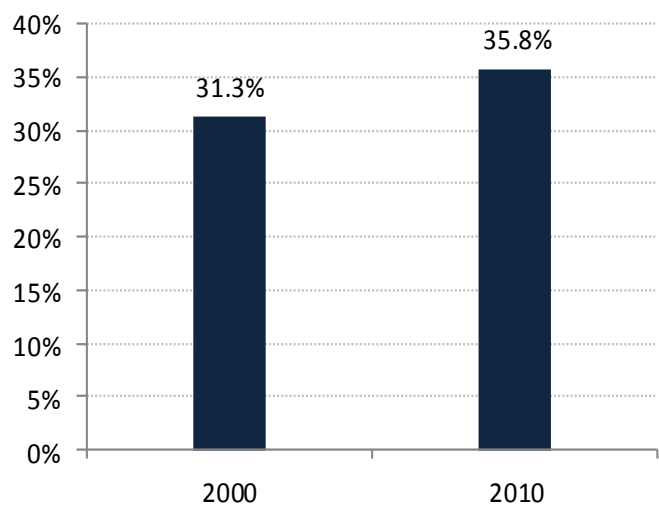

Jefferson County Latino Population Brief

Chart 5. Average Latino Household Size by Tenure

The chart above shows average household size for the county's Latinos in 2000 and 2010. Statewide, Latino households declined in size over the ten year span.

Chart 6. Homeownership Among Latino Households

The chart above shows homeownership rates for Latino households in the county. Statewide, there was a slight decrease in owner occupancy between 2000 and 2010.
